Changing lives through education

ORT SA CAPE team

## CEO REPORT

**Over the past year, ORT SA CAPE has continued to apply our core values of dedication, integrity, respect, passion, excellence and innovation to everything we do. We continue to take the small steps to effect big change.**

We remain committed to changing lives through education and recognise the valuable role played by educators in our society. To this end, we continue to train and support teachers through our various initiatives, helping them find new and innovative ways of teaching. Teachers are arguably the most important members of our society. They give children purpose, set them up for success as citizens of our world, and inspire in them a love for learning and a will to succeed in life. Our teacher training courses continue to inspire educators and are geared at helping them prepare their learners for the future. We look forward to continuing our innovation in the education space, re-shaping and re-imagining what education could be.

As we know South Africa's youth unemployment rate is dire and we believe that *"unemployment is everyone's problem"*. At ORT SA CAPE we are addressing this through various youth employment initiatives. Guiding and mentoring young people as they embark on a yearlong work experience programme aimed at helping them find their passion and purpose as well as making them more employable.

The negative impact of the Covid Pandemic on education and society in general will persist in our schools and economy for decades to come. Throughout 2022, ORT SA CAPE continued to support families and ECD centres with much needed food relief. This has been a life line for many families who are in need of support.

ORT Jet continues to impact by offering training, mentorship and networking opportunities for businesses across Cape Town. ORT Jet helps in growing business networks and addresses the needs of each individual business.

ORT SA CAPE has a dedicated team with a wealth of experience and expertise in education and the non-profit sector. Our staff are talented, passionate, professional and committed individuals who believe in and live ORT SA CAPE's vision and mission.

The relationships with our partners, donors and beneficiaries continue to be our main priority, always striving for excellence, ensuring best practice, accountability and integrity. Our success during this year could not have been achieved without the continued support of our donors, board members and strategic partners and to them we are extremely grateful.

# INTRODUCTION

## ORT SA CAPE EDUCATION

We are a socially conscious, committed NGO that creates hope through education.

We believe that the solution to global problems lies in empowering teachers and encouraging initiatives that support the growth and potential of young people.

### We focus on:

#### Youth

Through work experience placements and accredited learnerships we upskill youth.

#### Teachers

We train and support teachers and practitioners through our short courses that ensure that they are enriched and kept abreast of current and future trends.

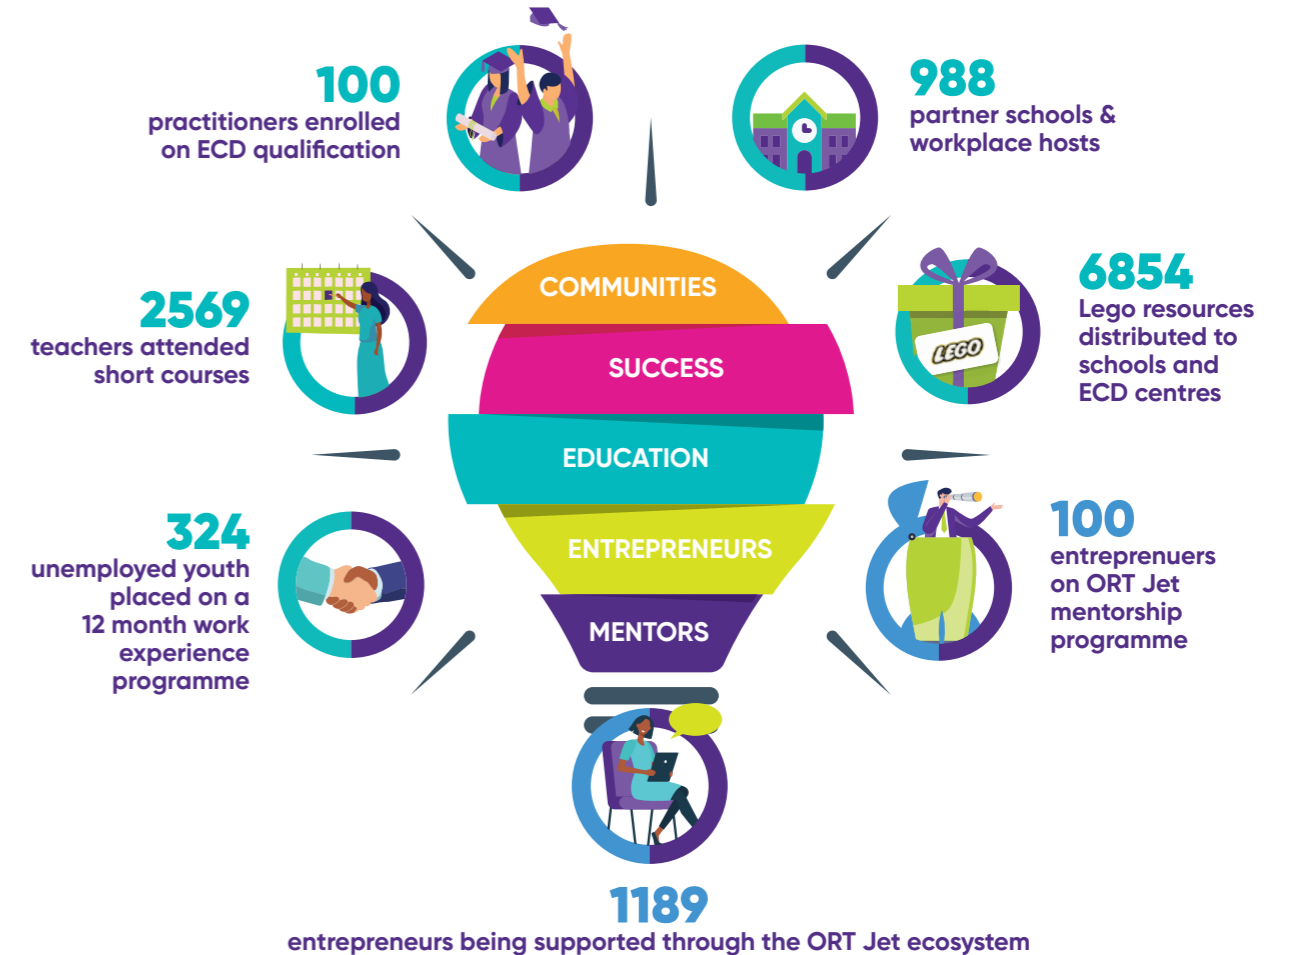

#### Entrepreneurs

ORT Jet Cape Town empowers entrepreneurs and facilitates business growth through mentorship, networking, and training.

Our children are the future of our country. Through ORT SA CAPE, I now have a better understanding of Early Childhood Development."

**Wodwa Maleni, Founder Educare Centre**

## YOUTH DEVELOPMENT

We are committed to empowering and uplifting youth through our:

**One year workplace experience programme** which addresses South Africa's high employment rate. We recruit, train and place young people in schools and small businesses to gain valuable work experience. Youth also receive mentorship during their placement. This opportunity affords them the chance to grow and find their passion and purpose.

**Level 4 ECD SETA accredited learnership** that focuses on Early Childhood Development (ECD) and foundational learning skills in young children. Investment in quality ECD is imperative for the future success of our country. Our objective is to create a desire for learning in very young children by equipping their educators with the knowledge and skills needed to ensure that each child can reach their full potential.

## TEACHER TRAINING

We are passionate about training teachers and practitioners, so that they can implement their knowledge to shape and guide our future generations to success.

Our enriching short courses are designed to improve teaching skills and overall content knowledge in specific areas of need in the curriculum. They cover literacy, numeracy, perceptual skills, cognitive development, coding and robotics as well as purposeful play.
